

AREENA MAHEK

Forward Deployed Engineer

areenamahek1998@gmail.com • Chicago, IL • (312) 783-1733 • [linkedin.com/in/areena-mahek/](https://www.linkedin.com/in/areena-mahek/) • areenamahek.github.io/AreenaMahek/

SUMMARY

Results-oriented and technically versatile engineer with 3+ years of experience building and deploying scalable solutions for enterprise clients. Experienced in client-facing roles, handling end-to-end deployments, and integrating complex systems like SAP S/4HANA and SAP Business One. Focused on applying AI-driven automation and modern technologies (Next.js, React, Python, Golang) to solve real-world challenges, improve operational efficiency, and deliver measurable outcomes.

RELEVANT EXPERIENCE

Oxmaint Inc. | Lead Forward Deployed Engineer | Sunnyvale, CA

Aug 2025 – Present

- Acted as a Forward Deployed Engineer, working directly with enterprise clients to understand requirements, deploy tailored solutions, and ensure seamless system integration and performance in production environments.
- Led end-to-end client implementations, translating business needs into technical solutions and driving successful onboarding across diverse enterprise systems.
- Owned complex enterprise integrations with SAP S/4HANA (BTP, OData), SAP Business One, and QuickBooks, enabling streamlined financial and operational workflows for customers.
- Designed and deployed AI-driven automation workflows (using n8n and LLMs like GPT-OSS and Anthropic Claude) to solve customer-specific challenges, reducing onboarding time by 40% and improving operational efficiency.
- Partnered closely with customers and internal teams to troubleshoot issues, optimize deployments, and continuously improve system performance and scalability in live environments.
- Applied data analysis and AI techniques to monitor and reduce asset downtime, delivering measurable improvements in system reliability and operational insights.
- Built and customized full-stack features (React, Next.js, TypeScript, Golang) to meet unique client requirements, including API integrations and enterprise-grade enhancements.
- Contributed to core product development, incorporating feedback from real-world deployments to enhance product capabilities and usability for enterprise customers.
- Worked in Agile environments, participating in sprint planning, execution, and reviews to rapidly deliver and iterate on customer-facing solutions.

DePaul University | Research Assistant | Chicago, IL

Scalable Data Management Service as a Microservice – ByteBridge

Jan 2025 – June 2025

- Designed a modular subsystem with Django and REST APIs for backend along with HTML/CSS/JavaScript for the frontend, improving research data accessibility and visualization by 70%.
- Applied Agile practices, Git-based version control, code reviews, and unit testing to ensure reliability, while collaborating with cross-functional teams to resolve development challenges and maintain seamless platform performance.

Interactive Out-of-Distribution (OoD) Data Visualization Dashboard

Aug 2024 – Dec 2024

- Developed an interactive visualization dashboard using Python, Trame and Vuetify (Vue.js) to support anomaly detection in high-dimensional lung nodule image data (LIDC dataset).
- Implemented threshold-based filtering to categorize images by OoD scores, enhancing interpretability and aiding model debugging.

DePaul University | Graduate Assistant-Tutoring Mentor | Chicago, IL

Sept 2023 – June 2025

- Mentored and supported over 200 undergraduate and graduate students in Python, Java, SQL, Django, Web Development, Tableau, Power BI, Algorithms, Distributed Systems and Data Structures, achieving a 95% improvement in student performance.
- Assisted in debugging, optimizing code, and guiding development projects for distributed systems and full-stack applications.

SKILLS

- Frontend:** JavaScript (ES6+), TypeScript, React.js, Next.js, Vue.js, Vuetify, Tailwind CSS, HTML5, Bootstrap
- Backend & APIs:** Golang, Python (Django, Flask), PHP, REST APIs, Trame
- AI & Machine Learning:** OpenAI, Anthropic Claude, Retrieval-Augmented Generation (RAG), Vector Databases (MongoDB, Milvus), NLP (NLTK, Hugging Face), ML Fundamentals (Classification, Clustering)
- Enterprise Integrations:** SAP S/4HANA BTP, SAP Business One, QuickBooks
- Data Visualization & Analytics:** Python, R, SQL (Oracle, MySQL, SQLite), Pandas, NumPy, SciPy, Scikit-learn, Tableau, Power BI, Matplotlib, Plotly, Seaborn, VTK
- Cloud & Big Data:** AWS (S3, EMR, EC2, Athena), Azure, Hadoop, Apache Hive, Google BigQuery
- Engineering & DevOps:** Docker, Git, Linux, JWT, OAuth2, Data Structures & Algorithms, Unit Testing, Web Scraping (BeautifulSoup)
- Soft Skills:** Problem-Solving, Communication, Collaboration, Adaptability, Time Management

EDUCATION

DePaul University | Chicago, IL, USA

M.S. in Computer Science with Data Science | GPA: 3.96/4.0

June 2025

Stanley College of Engineering and Technology for Women | India

MTech. in Computer Science | GPA: 3.6/4.0

Dec 2022

Muffakham Jah College of Engineering and Technology | India

B.E. in Information Technology | GPA: 3.75/4.0

Sept 2020
